ABOUT US

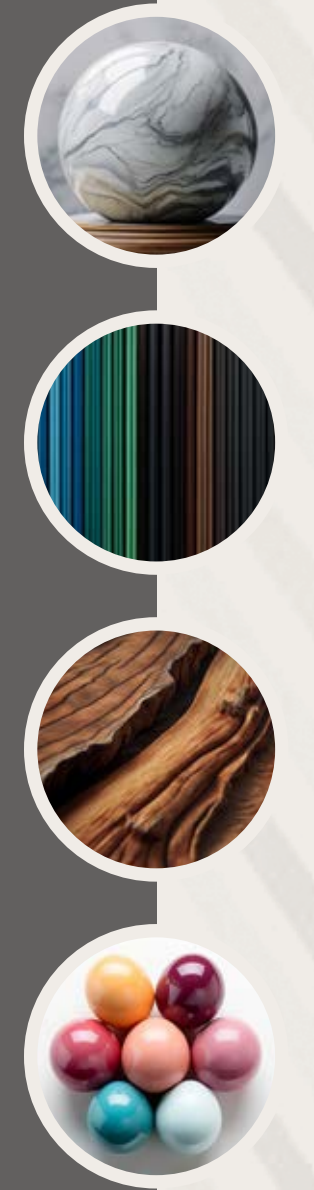

Presenting the amazing collection of high quality Acrylic laminates. We offer the widest range of solid colours, hence, this collection is a significance of surface excellence.

All the acrylic sheets here are designed carefully and are ideal for any interior. Not to mention that they are of course, scratch resistant, water and stain proof, strong and durable and more. The thickness of all these sheets is 1.5 mm thick and are ideal for vertical application.

At Pastel acrylic, we're passionate about bringing a touch of softness and warmth to your projects with our beautiful pastel acrylic sheets. Our story began with a love for color and a desire to provide high-quality, unique materials for designers, crafters, and businesses.

Have a good journey watching and selecting our mesmerizing and adorable collection.

*pastel*TM
ACRYLIC

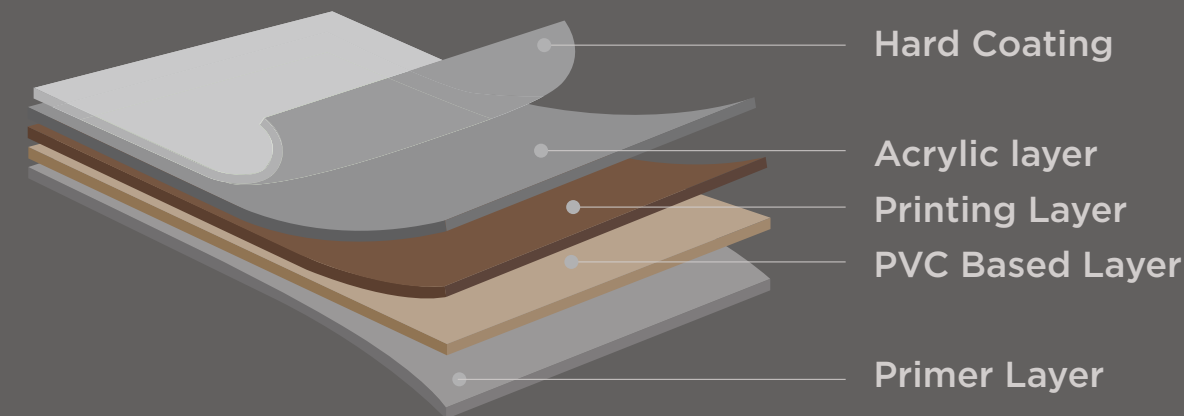

ABOUT WARRANTY

- Avoid air bubbles or waves after application:
- Never mix water to adhesive. Use only water based adhesive.
- Surface must be even.
- Uncertain and frequently changing weather may cause laminates to absorb moisture and lose it again resulting in air bubbles.
- If Acrylic Laminates of size more than 8'x2' are used in paneling, they may end up having air bubbles.
- Lack of the time given to pressing leads to having air bubbles.
- Acrylic sheets should be kept evenly straight. If the sheets are in roll form, It should be kept straight for minimum 48 hours and then can be pressed for better results.

CARE OF LAMINATES

- You are in the right hands!
- Pastel Decor are manufactured with aesthetics and durability in mind. when used as recommended, our laminates will last through the years. Pastel Decor are easy to maintain. We design our sheets using the Typical internationally recognized technical standards.
- To remove more stubborn stains, use mild household cleansers, gently wipe down with a non-abrasive cloth.
- Avoid the use of abrasive liquid cleansers, bleaching compounds or solution as these may damage the surface of the Acrylic sheets.
- Do not place hot cookware directly on the laminate. Prolonged exposure to temperatures above 30 degree Celsius may cause damage to the laminate surface.
- UV rays may reshape the laminate. Avoid outdoor applications.
- Have a thickness balance of +/- 10%

Easy film removal
In 6 Or 7 Days Of
Application

Shake it well and
lightly spray on the
surface.

Wipe the surface
clean using a light
circular motion.

Please open the roll
immediately.
Do not pressurize
while opening roll.

MERGE WITH EDGES

Pastel acrylic sheets are a variety of eye-catching and vibrant colours that can go with everything even with natural veneer.

To achieve a smooth sleek look, shiny and reflective surfaces like acrylic sheets are the solution. The gloss edging and bandings with Pastel protects against peeling of the edges.

Scratch Resistance

Superior resistance to scratch
6H, abrasion and impact

Stain Resistance

Easy to clean with soap
& water

Superior Gloss

Maximum gloss level than any
other surface decor

Ideal for Vertical Applications

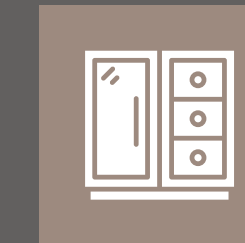

This decor is suggested for
vertical applications
